## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-9, 11, 13,15-17, 19, 20, and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Bennett.

Bennett discloses the use of an apparatus for displaying finger patterns of a stringed instrument having a fingerboard, the apparatus comprising a baseboard having thereon a pattern of chromatic notes(column 8, lines 50-55) each positioned in the same relative position as it appears on the fingerboard of the stringed instrument; and a plurality of templates for placement over the baseboard, each template corresponding to at least one particular key in a particular position(see tables 1-9) and defining a plurality of holes through which notes corresponding to a particular key are visible(column 13, lines 21-25). Bennett also discloses the use of templates that are releaseably secured to the baseboard to represent 12 major and minor keys (see figures 9b and 9c). Bennett also discloses the use of color-coded templates (column 6, lines 27-40). Bennett further discloses the use of a diatonic scale (see table 6).

3. Claim 10 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claim 26 is allowed.

***Response to Arguments***

5. Applicant's arguments with respect to claims 1-9, 11, 13, 15-17, 19, 20, and 26 have been considered but are moot in view of the new ground(s) of rejection.
